- To create an optimal cutting program for you please answer the following questions

High-speed cutters

- Which type of high-speed cutter will be used for the requested cutting job? (Polar EM, EMC-Monitor, E/ ED, X/ XT, a.s.o.)
- What is the cutting length handled with the machine? (78 cm, 92 cm, 115 cm, etc...)
- Please indicate which optional equipment your machine has:
  - Swivel / tilting backgauge yes ☐ no ☐
  - Fixomat/ hold-down clamp yes ☐ no ☐
  - Programmable clamping pressure regulation yes ☐ no ☐
  - Automatic clamping pressure regulation yes ☐ no ☐
  - Hold-down clamp in front of knife yes ☐ no ☐
  - Retractable side gauge yes ☐ right ☐ left ☐ no ☐
- If you are using a cutting system
  - Is the system automatically loaded via rear table? yes ☐ no ☐
  - If yes, the material is to be cut from a ☐ Transomat
    or from a ☐ jogger
    or from a ☐ piling-board shelf?
  - Is the high-speed cutter equipped with an automatic turning device? yes ☐ no ☐

Cutting scheme

- Which cutting or repeat sequence should be used for the cut?

_____

- Is the program processed on a machine? yes ☐ no ☐
- Does the cutting material need to be preclamped? yes ☐ no ☐

Additional / special information

- What kind of material do you want to cut?
  paper ☐ cardstock ☐ film ☐ other plastics ☐
- Grammage of the material to be cut: _____
- Is cutting with a counter cut required? yes ☐ no ☐
- Are there any special requirements which need to be considered for the cutting process – for instance when dealing with labels?
  yes ☐, i. e. _____ no ☐

I would like to have my cutting programm as a ☐ ppf-file ☐ job-file
